Experienced urologists & clinical teams

The La Trobe Urology Department brings together a group of highly trained doctors and staff to provide the latest treatments for illness affecting the urinary tract, including:

- Kidney stones
- Prostate cancer and benign prostate enlargement
- Bladder, kidney, and testicular cancer
- Pelvic floor disorders
- Continence issues
- Functional and reconstructive urology.

La Trobe Private Hospital has the latest technologies available to support the specialists and doctors in the treatment of stone disease, complex cancers of the urinary tract, pelvic floor reconstruction and incontinence.
